

WAGOU

WAGOU is a unity Language simple fun game to play in the classroom. It helps students to practice their language vocabulary associated with civilization and cultural festival states. The concept is similar to the Bingo but two of the squares should have two words from the native language.

With WAGOU power point:

- 1 You can reinforce your language teaching.
- 2 Add sound and music as you play WAGOU.
- 3 Add more slides for your classroom activities.
- 4 Build and share discourses using three spheres of learning process.

How to play

Get started!

- 1** Each student will get a printed 5x5 squares, containing words and phrases from virtues gems vocabulary list. Everybody get the same list but arranged in a different order.
- 2** Each time the teacher calls out a virtue or gives a hint, the students must identify the right square on his/her sheet, and marks it.
- 3** The first students who correctly mark their five entries diagonally, across a row or vertically in a column, have written WAGOU in the middle Free space and then yell WAGOU (means unity in Japanese) win the game.

virtue Gems WAGOU game
